

Mandai
**Night
Safari**

Explorer's Must-do Checklist

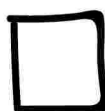

Set foot on the walking trails for a real Night Safari adventure.

Trust us when we say Night Safari is more than a tram ride. Our walking trails allow you to spend a few more minutes at your own time to spot our masters of camouflage! You may even get to watch some unique animal behavior

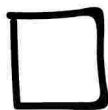

Catch our exhilarating Creatures of The Night Show

Arrive early to get seats in the first 3-5 rows of the two blocks in the centre, for the best view.

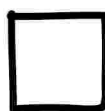

Let our keepers bring you up close encounters with our nocturnal residents.

Settle down in a cozy spot and enjoy a chat with our keepers, and find out more about the pangolin, serval and more at our all new Explorer Outpost!

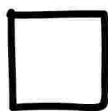

Don't miss our pint-sized wallabies

Jump at this chance to walk amongst these marsupials, that are often mistaken as baby kangaroos, as they roam freely around you at the Wallaby Exhibit!

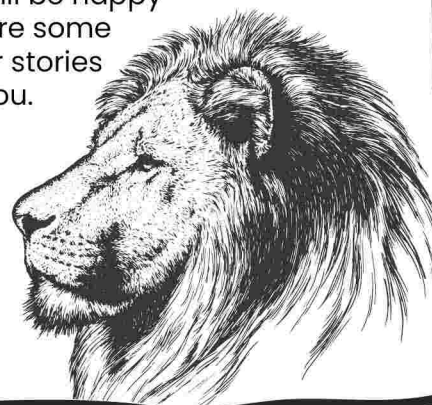

Embark on the Safari Adventurer Tour

The tour guarantees an exclusive view of Night Safari, with your own personal buggy and an experienced guide who will be happy to share some insider stories with you.

Follow the smell of buttered popcorn

If you have never smelled an animal that smells of butter popcorn you clearly haven't met our Binturong at the Fishing Cat Trail. Don't take our word for it, head over and smell it for yourself.
